FOR IMMEDIATE RELEASE

Print-and-Mail Outsourcing Company FSSI Announces New Online Video Tour

Statement and invoice production, electronic statement presentment, and bill presentment (EBPP, EIPP) services are featured, along with facilities overview

SANTA ANA, CA – March, 2010 – Financial Statement Services, Inc. (FSSI) today announced that its new online video tour is now available for viewing by customers, partners, prospects and stakeholders. The company’s customizable [statement and invoice production](#), [electronic statement presentment](#), and bill presentment (EBPP, EIPP), transpromo and CRM letter/notice solutions are briefly featured, along with best-in-class technologies, support teams and certified production controls.

Though much shorter, the video loosely approximates the walking tour visitors and VIPs receive at the company’s 167,000 sq. ft. headquarters in southern California. FSSI’s Sales and Marketing Vice President, [Steve Bolaris](#), says that the new resource makes it easier for prospective clients from anywhere in the country to see and learn about FSSI’s customizable solutions.

“The video introduces FSSI and shows visitors how customer communications, such as statements, invoices and [LetterStreamOne™](#) (CRM) letters/notices are produced here. We believe that seeing the physical plant, and some of our hundreds of employees, will assure companies that FSSI offers the size, production capacity and specialized experience needed to handle large or complex projects. If you can’t physically come see us, a video tour is the next best thing,” says Bolaris.

Those wishing to view the professionally produced, five-minute presentation are asked to contact Steve Bolaris, Sales & Marketing VP, at 714-436-3865 to obtain a personalized login, which grants access for up to 10 days.

About FSSI

Founded in 1980, FSSI is a SAS-70 Type II certified, woman-owned outsourcing company that serves many diverse sectors including financial services, government, healthcare, telecommunications, utilities and others. Through the secure production and delivery of targeted, time-sensitive communications, FSSI reduces clients' overhead, capital, CRM and postal expenses, while providing unprecedented compliance controls.
