FOR IMMEDIATE RELEASE

FSSI PARTNERS WITH CATHEDRAL CORPORATION TO GIVE MORE CLIENTS COAST-TO-COAST COVERAGE

SANTA ANA, CA – August 2009 – California-based Financial Statement Services, Inc. (FSSI), a print-and-mail outsourcing solutions leader is partnering with Rome, New York's [Cathedral Corporation](#), a national provider of transactional documents, personalized direct mail, and other services. The goal is to broaden both companies' regional presence and to enhance the quality, number and types of offerings available to each firms' clients.

As a result of the agreement, FSSI will offer Cathedral's best-in-class e-Presentment solution, while Cathedral makes available [FSSI's letterStreamOne™](#) dynamic correspondence solution. Together, both companies will offer additional disaster recovery and distributive [print/mail services](#).

"We've both been seeking a partner on the opposite coast, one who shares a likeminded commitment to quality, client-focus and technology. We've found that in Cathedral and we're very excited," says FSSI president, Jennifer Dietz. The partnership is collaborative not competitive, so it opens up new markets and opportunities for both of us. The resulting geographic advantages also enable us to effectively compete together against much larger companies," Dietz adds.

Elaborating on reasons for the pairing, Cathedral president and CEO, Marianne Gaige, adds, "Some of our largest customers had asked us to put a location on the West Coast. Now, we provide the data file and FSSI prints and dispatches it the same day. The key benefits to customers are speed and convenience, with continued high quality and customer service. Because FSSI is of a similar size as Cathedral, our partnership has essentially doubled the production capacity available to our customers."

About FSSI www.fssi-ca.com

Founded in 1980, FSSI is a full-service print and mail leader specializing in the design, redesign, production and delivery of high-impact, printed and online customer communications.

FSSI tailors outsourcing solutions to fit print volumes ranging from the thousands to the millions for billing statements, invoices, letters or digital color mailers. Mail-piece processing and finishing, including [Unique Piece Tracking \(UPT\)™](#) are performed in a 168,000-square-foot, [SAS-70 Type II certified secure facility](#) to ensure data integrity and timely delivery.
